MINAI KARLSSON

Front End Developer
Student

SUMMARY

Frontend Development student at Medieinstitutet with a strong interest in modern web development and user-centered design. I am solution-oriented, detail-oriented, and enjoy building accessible, responsive, and user-friendly web applications. Through my studies, personal projects, and client work, I have gained experience with HTML, CSS, JavaScript, TypeScript, PHP, and modern development tools. I aim to continue growing as a frontend developer and see AI as a valuable tool for improving development workflows and creating better digital solutions.

PROJKET

Aros Snickeri, HTML, CSS, JavaScript, PHP
Client project where a WordPress website was rebuilt into a custom solution with a focus on performance, responsive design, and usability.

Anoteros, HTML, CSS, PHP, FileZilla
Developed a responsive company website with a focus on modern design, accessibility, and improved site structure.

Temple of Five, HTML, CSS, JavaScript
Group project developing an interactive escape room with a focus on accessibility, animations, and user experience.

Juniper AB, HTML, CSS, JavaScript
Group project where a responsive company website was developed from a Figma design with a focus on semantic HTML and modern CSS.

More projects are available in my Portfolio
